

# NIST Tour Information

October 20, 2022

Bus transportation will be provided from DOE HQ Germantown to NIST and back to DOE HQ Germantown and the Courtyard Gaithersburg Washingtonian Center. **Note: For security reasons, no POVs or rental cars are allowed at NIST.**

## **TOUR REGISTRATION IS CLOSED.**

Upon arrival at the NIST Visitor Center, everyone will be checked in and given a tour badge.

### **Please keep in mind:**

US citizens must now present a form of identification that is consistent with DHS's REAL ID program. As a result of this policy, we recommend that all visitors, including US citizens, bring a valid passport to be guaranteed access to the NCNR. For those who do not have a valid passport, US driver's licenses will continue to be accepted. We do know that licenses that have something such as "Not for Federal Identification" printed on them will not be accepted.

### **Other types of ID that will be accepted include:**

Passport card  
DoD's CAC  
Federal agency HSPD-12 IDs  
Veterans ID  
Military dependents ID  
Trusted Traveler card: Global Entry, SENTRI, or NEXUS  
Transportation Workers Identification Credential (TWIC)

Any person who is a foreign national must bring their passport. A permanent resident must bring his/her green card. **No exceptions will be made.**

## **DOE Accelerator Safety Workshop Tour of the NIST Center for Neutron Research (NCNR) and the Center for Nanoscale Science and Technology (CNST) NanoFab Facility**

October 20, 2022	Agenda	35 split into two groups A & B
12:45 p.m.	Bus picks up at DOE Germantown for trip to NIST
